(U//FOUO) Analysts: CIA Reports Are Changing Format; Check Your Anchory Retrieval Strategies

FROM: Consumer Services (S12C)
Unknown
Run Date: 07/07/2006

(S) Please note that beginning 13 July 2006, the CIA's National Clandestine Service (NCS, formerly DO) will be changing the format of its intelligence reporting, which may require some NSA/CSS analysts and others to make adjustments to their current retrieval strategies for CIA's TD and TDXs, at a minimum.

(s) Specifically, NCS (DO) will start using National Intelligence Priority Framework codes (e.g TERR for Counterterrorism) in the subject line/titles of their intelligence reports, in place of the prosigns (e.g. CT) currently in use. For your reference, we have included a table below that maps the current two-letter prosigns to the four-letter NIPF codes that will be replacing them.

Topic Code	Topic Value	Converts to NIPFs:
AS	Alien Smuggling	DRUG, CRIM
CI	Counterintelligence	CINT
CN	Counternarcotics	DRUG, CRIM, MONY
CT	Counterterrorism	TERR, HSEC
DD	Denial and Deception	FD&D
EC	Export Control	CRIM, TRAD
ES	International Economic Issues	ECFS, ESEC, TRAD, FPOL
IC	International Organized Crime	CRIM, MONY, DRUG, TRAD
IO	Information Operations/Warfare/Assurance	CYBR, TECH
ML	Money Laundering	MONY
TE	Telecommunications	MCAP, FMCC, INFR
WP-AW	Weapons Proliferation-Advanced Conventional Weapons	ACWP
WP-BW	Weapons Proliferation-Biological Weapons	WMDB
WP-CW	Weapons Proliferation-Chemical Weapons	WMDC
WP-DS	Weapons Proliferation-Delivery Systems	WMDM
WP-NW	Weapons Proliferation-Nuclear Weapons	WMDN
WP-PR	Weapons Proliferation-Procurement	WMDB, WMDC, WMDM, WMDN, ACWP

Here are some examples of how CIA (DO) report titles will look after the conversion:

SUBJ: **WMDM/SPCE** : BACKGROUND ON XYZ WEAPONS

SUBJ: **TERR:** TALIBAN PLAN FOR AMBUSHES

(S) We do not have information at this time whether this change will affect CIA's CIR (Cryptologic Information Report) reporting. While this conversion is scheduled to take effect on 13 July, not all DO reporting will reflect the change at that point, so profiles/queries may need to be adjusted to detect either prosigns or NIPF codes. If you require any assistance modifying Non-Interactive Retrievals for ANCHORY, please contact the ANCHORY Help Desk at ▮▮▮▮▮▮

or via e-mail at DL_ANCHORY. Thank you for your attention to this matter.
